WORK EXPERIENCE

IT Developer & Sales Associate at EMBM Services **2024 - Present**

- Develop custom third-party tools, plugins, and system integrations for AutoCount Accounting Software, extending system functionality and automating client business processes.
- Serve as the primary developer within the company responsible for designing, developing, and maintaining custom integrations for AutoCount Accounting Software, an ERP/accounting solution developed in Malaysia.
- Configure and deploy Microsoft Azure cloud services and VMware virtual environments for development, testing, and client implementations.
- Install, configure, upgrade, and troubleshoot accounting systems including AutoCount Accounting, QuickBooks, and AccountingSuite.
- Provide technical support, software implementation, system integration, user training, and after-sales support for clients across various industries.

On-the-Job Trainee - EMBM SERVICES **2024**

- Supported software installation, system setup, and implementation for business and accounting solutions.
- Assisted in configuring virtual machine environments using VMware and gained hands-on experience with Microsoft Azure cloud services.
- Performed basic server administration, database maintenance, and routine system monitoring to ensure reliable operations.
- Collaborated with senior developers and technical engineers in system deployment, maintenance, and client support activities.
- Participated in a ransomware incident response by assisting with server recovery, restoring system access, and supporting cybersecurity remediation efforts.
